Maximum Marks	4 Marks

Empathy Map

SAYS • I need instant credit card eligibility results. • I don't want to apply blindly and face rejection. • Bank's manual review is too slow and unclear. • A quick ML prediction saves my time and effort.	THINKS • Is my income level enough for approval? • Human reviewers can be biased and inconsistent. • ML model can assess my profile faster and fairly. • I need clarity on why I was approved or rejected.
PERSONA NAME (Role / User Type)	
DOES • Enters income, employment and credit data in the web form. • Submits the form to get an instant ML-based prediction. • Reviews approved or rejected result on Flask interface. • Uses ML result before submitting a formal bank request.	FEELS • Nervous about sharing personal financial data online. • Relieved to get an instant decision without long waits. • Confident when the approval result is clearly shown. • Hopeful that the ML model evaluates profile fairly.
