

Initial Project Planning Template

Date	01 July 2026
Team ID	
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Product backlog and sprint schedule for the Credit Card Approval Prediction project.

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members	Sprint Start Date	Sprint End Date (Planned)
Sprint-1	Data Collection & Understanding	USN-1	As a user, I can import the historical credit card application dataset so that it is available for analysis.	2	High	B.Supraja chowdary	01 june2026	07 june 2026
Sprint-1	Data Collection & Understanding	USN-2	As a user, I can view dataset summary statistics (missing values, data types, distributions) to understand data quality.	1	Medium	K. Akhil kumar Reddy	01 june2026	07 june 2026
Sprint-1	Data Collection & Understanding	USN-3	As a user, I can visualize categorical and numerical features through EDA plots to identify patterns affecting approval.	2	Medium	M.Thanoj	01 june2026	07 june 2026
Sprint-1	Data Preprocessing & Feature Engineering	USN-4	As a user, I can handle missing values and outliers in the dataset so that the model receives clean input data.	2	High	K. Akhil kumar Reddy	01june 2026	07 june 2026
Sprint-1	Data Preprocessing & Feature Engineering	USN-5	As a user, I can encode categorical features into numerical format so that they can be used for model training.	2	High	M.Thanoj	08 june2026	14 june 2026

Sprint-1	Data Preprocessing & Feature Engineering	USN-6	As a compliance officer, multi-class payment status codes are converted into binary risk labels so that high-risk applicants can be clearly classified as ineligible.	3	High	B.Supraja chowdary	08 june2026	14 june 2026
Sprint-2	Model Building	USN-7	As a user, I can train a Logistic Regression model on the processed dataset to predict approval status.	2	High	K. Akhil kumar Reddy	08 june2026	14 june 2026
Sprint-2	Model Building	USN-8	As a user, I can train a Decision Tree classifier on the processed dataset to predict approval status.	2	Medium	M.Thanoj	08 june2026	14 june 2026
Sprint-2	Model Building	USN-9	As a user, I can train a Random Forest classifier on the processed dataset to predict approval status.	3	High	B.Supraja chowdary	08 june2026	14 june 2026
Sprint-2	Model Building	USN-10	As a user, I can train an XGBoost (Gradient Boosting) classifier on the processed dataset to predict approval status.	3	High	K. Akhil kumar Reddy	15 june2026	21 june 2026
Sprint-2	Model Evaluation & Selection	USN-11	As a user, I can compare accuracy, precision, recall, and F1-score across all four models to identify the best performer.	2	High	B.Supraja chowdary	15 june2026	21 june2026

Sprint-2	Model Evaluation & Selection	USN-12	As a user, the best-performing model is automatically saved (pickle file) so that it can be reused for predictions.	2	High	M.Thanoj	15 june2026	21 june 2026
Sprint-3	Web Application Development	USN-13	As a prospective customer, I can enter my personal and financial details into a web form to check my eligibility.	2	High	K. Akhil kumarReddy	15 june2026	21 june 2026
Sprint-3	Web Application Development	USN-14	As a user, I can submit the form and instantly receive an approval or rejection prediction.	3	High	B.Supraja chowdary	15 june2026	21 june2026
Sprint-3	Web Application Development	USN-15	As a credit analyst, I can view the prediction result along with the applicant's details on a results page to prioritize further review.	2	Medium	M.Thanoj	22 june2026	28 june 2026
Sprint-3	Web Application Development	USN-16	As a compliance officer, I can batch-upload applicant records with past-due loan history to screen high-risk applicants.	3	Medium	B.Supraja chowdary	22 june2026	28 june2026
Sprint-3	Cloud Deployment	USN-17	As an admin, I can deploy the trained model to IBM Watson Machine Learning so that it can be hosted on the cloud.	3	High	K. Akhil kumarReddy	22 june2026	28 june2026
Sprint-4	Cloud Deployment	USN-18	As a user, I can access the credit card prediction service through a cloud-hosted, real-time API.	2	High	M.Thanoj	22 june2026	28 june2026
Sprint-4	Testing & Validation	USN-19	As a tester, I can validate model predictions against test data to ensure prediction accuracy before release.	2	High	B.Supraja chowdary	22 jun 2026	28 june2026
Sprint-4	UI/UX Refinement	USN-20	As a user, I can use an intuitive and user-friendly interface to enter details and view results without confusion.	2	Low	K. Akhil kumarReddy	22 june2026	28 june2026
